A monumental feat of engineering, the glass and metal shell holds several different land types, or biomes, where scientists use the latest technology to experiment on Earth systems on a relatively large scale. For the first time since its conception, visitors can explore inside the 3.15 acre laboratory on a fully guided tour. 32540 S. Biosphere Road, Oracle, AZ 85623

Cochise County-Land of Legends
Do it all in just a few days without ever leaving Cochise County. Located in the Southeast corner of Arizona, this is one of the most culturally, historically and geographically diverse areas in the American Southwest: Benson, Bisbee, Douglas, Tombstone, Sierra Vista and Willcox - legendary communities within a short drive of one another - less than a day's journey by stagecoach, it's said.

Sierra Vista-Southern Arizona Bird Watching
Located at the center of one of the finest birding areas in the United States, Sierra Vista is often referred to as "The Hummingbird Capital of the U.S." The mild climate, proximity to Mexico and diverse habitats, including 9,000-foot mountains and the magnificent San Pedro River Valley, make southeastern Arizona a major hot spot for rare and unusual species of birds.
